SEPTEMBER 12-14 | ACWWA 2010

ONLINE REGISTRATION WWW.ACWWA.CA | REGISTER NOW TO WIN THE EARLY BIRD DRAW
Invitation from Chair

This year, ACWWA is very excited to be holding our 63rd annual conference and tradeshow in historic Saint John, New Brunswick, September 12 –14, 2010. The conference will be held at the Delta Brunswick Hotel in uptown Saint John and promises to be a wonderful and rewarding experience. With the conference date being about a month earlier than usual, we can expect some nice late summer maritime weather for our golf tournament and other outdoor activities.

Your conference committee, co-chaired by Brent McGovern and Dean Price, has been hard at work since January preparing an excellent program based on this year’s theme What’s Coming Down the Pipe? You can expect a strong technical program covering many current and emerging water and wastewater challenges. This event will be a learning experience for all attendees and a chance to network with your colleagues from across Atlantic Canada.

Our conference partners at ABEA will be hosting the annual tradeshow to showcase the many new and innovative products that truly benefit our industry. Once again this year our operators will have a chance to demonstrate their knowledge and have some fun at the Top Ops competition.

This year bring your companion along to enjoy all the great activities that the host committee has put together. You’ll be pleasantly surprised at what the Port City has to offer in the way of tours, shopping, dining and nightlife.

On behalf of the ACWWA board I invite you to register early for this event. We hope to see a record crowd in Saint John!

Ensor Nicholson, P.Eng.
Chair, ACWWA

Welcome from the Co-Chairs

It is our pleasure to invite all members of our water and wastewater industry to the 2010 ACWWA Conference, “What’s Coming Down the Pipe?” The world of water and wastewater is rapidly changing with growing demands, limited water supplies and more stringent regulations. Stakeholders are faced with significant challenges; this year’s conference puts a focus on the daunting task many have in overcoming all of these obstacles.

The 2010 Conference will be a fantastic opportunity for friends and colleagues to learn about how others have dealt with, or are now dealing with, the changing face of water and wastewater treatment as well as supply and collection.

We are proud of this year’s conference, from the top notch technical program to the keynote speaker, who will be sure to captivate the audience. The annual trade show is an opportunity to learn about the latest offerings and technology in the industry.

Please encourage your colleagues (members and non-members), young professionals and students to attend. We guarantee they will find it worthwhile.

This year bring your companion along to enjoy all the great activities that the host committee has put together. You’ll be pleasantly surprised at what the Port City has to offer in the way of tours, shopping, dining and nightlife.

On behalf of the ACWWA board I invite you to register early for this event. We hope to see a record crowd in Saint John!

Brent McGovern, P.Eng.
Conference Co- Chair, ACWWA 2010

Dean Price, P.Eng.
Conference Co- Chair, ACWWA 2010
Richard Zurawski
Environmentalist & Chief Meteorologist

Richard Zurawski, a member of the Atlantic Speakers Bureau, is a familiar voice and face to people across the Maritimes. He captivates all audiences with his wit and expertise on any subject. Author, broadcaster and documentary filmmaker, Richard is sharing his wealth of knowledge with Canadians on world issues, climate change and the ever-changing weather. As chief meteorologist for Rogers Radio in Halifax, Saint John and Moncton, Richard produces daily reports to keep listeners up to date with their region’s forecast. In addition to his weather updates, Richard also co-hosts the Wednesday Science File with Andrew Krystal and also writes a popular science blog for the station’s website three times a week.

Richard is currently working on his Doctorate in Philosophy at the University of South Australia and has his Research Master of Arts in Education from Mount Saint Vincent University, a Bachelor of Science in physics and mathematics from the University of Windsor and diplomas in meteorology and advanced meteorology from Environment Canada. He has written two books on Maritime Weather and Climate Change and is slated to publish his third about Television and Science with Fernwood Press early next year. His latest documentary production, M5 - Weapons of War, is now airing on Discovery HD.

He has also acquired undergraduate credits in geology, biology, German, philosophy and astronomy at the University of Toronto. Richard is a member of the Canadian Independent Film Caucus, The Alliance of Children’s Television (past board of director), Royal Astronomical Society of Canada, Mensa, and the American Meteorological Society.
CONFERENCE SCHEDULE HIGHLIGHTS

Sunday, September 12, 2010
11:00 am  Golf at Rockwood Park
1:00 pm   Technical Tours
3:00 pm   River Cruise
4:00 pm   Guided Tour of Saint John
5:30 pm   Young Professionals Dinner
8:00 pm   Meet and Greet Reception

Monday, September 13, 2010
7:00 am   Water for People 5 km Run/Walk
8:30 am   Conference Opening and Keynote Speaker
Noon     Annual General Meeting Luncheon
3:45 pm   Top Ops Competition
6:00 pm   ACWWA Banquet
9:00 pm   ABEA Hospitality Reception (off-site)

Tuesday, September 14, 2010
7:30 am   Awards Breakfast
Noon     Tradeshow
3:30 pm   Pipe Tapping Demonstration
4:00 pm   Architectural Walking Tour
6:00 pm   Reception/Down East Feast and Kitchen Party

The festivities begin Sunday with the great outdoors of Saint John, New Brunswick.

Why not show off your skills at the Rockwood Park golf course or climb aboard the M.V. Voyageur II and enjoy the serenity of the Saint John River. If boats or golf are not your thing, join the guided tour of Saint John’s best tourist destinations. Catch up with old friends at the meet and greet to enjoy good conversation, beverages and local musical talent.

The annual banquet on Monday evening will feature a great choice of Canadian and International food, live pre-dinner music and a few interesting surprises.

After the trade show, architectural aficionados can enjoy a walking tour of the Uptown’s historic Trinity Royal area, narrated by the curator of the New Brunswick Museum.

Tuesday will be a night like no other at the annual Down East Feast. The evening will be filled with great food, laughter and exceptional live local entertainment that is sure to get you out of your seat and on to the dance floor.

Technical Tours & River Cruise

On Sunday, join us for one of these informative technical tours:

Option 1. Millidgeville Wastewater Treatment Facility
Saint John Water’s Millidgeville Wastewater Treatment Facility is a secondary treatment plant, upgraded in 2004 to accommodate 10,000 cubic metres of wastewater per day.

Option 2. Rothesay Water Treatment Plant
In 1996, the Town of Rothesay's Water Treatment Plant was the first major drinking water plant constructed using Zenon low-pressure membrane technology. In 2008, the plant underwent an extensive upgrade.

After the technical tours, the bus will make a brief stop at the hotel to pick up and drop off passengers. Then it will head up to the Saint John Marina for the River Cruise. The M.V. Voyageur II, a true Mississippi River Boat, will wind its way up the St. John and Kennebecasis Rivers, taking in some spectacular scenery.

Pipe Tapping Demonstration

On Tuesday, a team from Saint John Water will put on a pipe tapping demonstration. AWWA rules and regulations will guide the demonstration. Should any municipality or firm wish to field their own demonstration team, please contact Graham Huddleston (506) 658-4477 for details. Registration $50.
ABEA HOSPITALITY

3rd Annual 2010 ABEA Common Hospitality Reception

The ABEA Host Supplier group welcomes you once again to join the festivities on Monday evening. Following the Annual Banquet join friends, colleagues and new faces at your only exclusive Waterworks party of the year. As in previous years a favorite local Maritime establishment will play host to delegates and ABEA suppliers. Live music, great food and service without a wait will all be part of a fun filled evening in Historic Uptown Saint John. Find out what the buzz is about and check it out! Location will follow in the Conference Program.
## TECHNICAL SESSIONS

The Sixth annual Top Ops Competition will be held on Monday, September 13 at 3:45 pm. The Top-Ops challenge was developed to recognize and promote excellence and professionalism in all aspects of water operations by establishing a contest that gives operators the opportunity to showcase their talents. In this “Reach for the Top” style event, teams of two or three water treatment/distribution operators compete against other teams in a competitive, fast-paced question and answer tournament.

For a complete set of competition rules, please contact Trent Brewer at (506) 460-2179.

Registration is $50 per team. The deadline for registration is Friday, September 3rd, 2010. To register contact David Russell or Barb Crawford at (506) 633-5000.
COMPANION PROGRAM

Is your companion thinking of joining us? Saint John has plenty to offer. A special program has been created just for companions, featuring morning yoga at the Yoga Outlet, a wine tasting over lunch at Opera Bistro, a gallery hop through Uptown Saint John, which has the highest concentration of galleries in Atlantic Canada, and lunch at the famous, historic City Market. As well, companions will have an opportunity to shop Uptown with a local guide. There’s everything from fashion to jewelry to art and New Brunswick crafts.

Monday, September 13th
Morning Yoga at the Yoga Outlet
Wine Tasting and Luncheon at the Opera Bistro
Shopping in Uptown Saint John

Tuesday, September 14th
Morning Yoga at the Yoga Outlet
Uptown Saint John Art Gallery Hop
Lunch at the City Market
Shopping in Uptown Saint John

Companions are also welcome to take part in the River Cruise, the two guided tours, as well as the Monday evening banquet, keynote address and Down East Feast Tuesday evening.
CONFRONT THE CRISIS

People without access to safe drinking water: 884 million
People without adequate sanitation: 2.6 billion

Water For People envisions a world where no one suffers or dies from a water-related illness. Some may say that's too lofty a goal, but frankly we have high expectations. They lead us to succeed in our 11 national programs. We believe we can change the world for millions.

But high expectations alone don't create long-lasting solutions on the ground. We grow our impact, innovate and hold ourselves accountable in every water, sanitation and hygiene education program we create to set in motion a current of change for the developing world.

2010 marks a new chapter for Water For People. A new logo and website were launched on March 25, 2010. The new logo is based on the ideas that the organization stands for: transparency, impact, reflection, diversity, water and sanitation solutions and change. Water For People focuses on long-lasting solutions as one of the most important outcomes in solving the problems of safe water and sanitation in the developing world. To support this idea and the work done all over the world, three items support this key message.

• Creating Integrity and Accountability in all that we do builds greater trust, transparency and successful partnerships.
• Innovation permeates all that we do from being a learning organization, to evaluating new programs, to developing programs such as World Water Corps to monitor and communicate our work.
• Growing Our Impact in the field is critical to our success, as we strive to demonstrate how replication, scale and covering an entire district or area can lead to far greater outcomes than singular projects.

Look for Water For People Canada volunteers at ACWWA 2010 for more information and ways to get involved:
• Meet and Greet Fundraiser, Sunday 8 to 10 p.m.
• 5km Fun Run (or Walk), Monday 7 a.m. in hotel lobby
• Silent Auction, Monday 12 p.m. to Tuesday 4 p.m., Manchester Room

Please visit www.waterforpeople.org for more information on our programs and how you can get involved.
HISTORIC TOURS

Tuesday afternoon gives conference goers the chance to explore historic Uptown Saint John with a guided walking tour. A guide from the New Brunswick Museum will show you the best of Saint John's architectural and artistic gems, from the Chubbs Corner gargoyles based on city councillors to the Hooper statues.

As well, Saint John is featuring a display of water and sewer history, including historic photos, equipment, valves and other pieces of the industry’s past. If other municipalities or suppliers have any interesting water antiques or curiosities to display, please contact Al Phinney (506) 658-4764.

YOUNG PROFESSIONALS

Join the ACWWA Young Professionals (YP) for dinner on Sunday night at Peppers Pub, Market Square Boardwalk.

The YP Committee provides young water and wastewater professionals with opportunities for learning and socializing with one another and with more experienced professionals. If you are between 20 and 40 years old and would like to take part, be sure to check the YP Dinner box on your registration form. Mature professionals are also encouraged to join in – your experience and advice are invaluable to those just starting out in the industry.
In a world of websites, e-mails, and voice mails, our trade show offers one of the true opportunities to build relationships with face-to-face contact. The 2010 Tradeshow will allow delegates and participants the chance to meet with suppliers, manufacturers, industry experts, new contacts and network with colleagues. Take in the whole conference or just the Tradeshow. We’ve set aside Tuesday afternoon (12 p.m. - 4 p.m.) for exhibitors to showcase their products and services. Expect 50+ booths occupied by local and international companies.

The ABEA, Host Supplier group of the ACWWA, will once again challenge delegates and participants with their sixth annual “ABEA Passport System”. A simple question/answer card found in your delegate package can be filled out during the Tradeshow, giving you an opportunity to win a $1000 gift certificate. It will be drawn during the Down East Feast event Tuesday evening. Don’t miss your chance to win!

REGISTRATION INFORMATION

All online registration forms must be received by July 30, 2010 to be eligible for the Early Bird Draw. All registrations completed online will be entered to win a special prize (valued at approximately $300.00) that will be drawn at the conference. Register online to ensure your name is in the draw!

Register early to save money! Registration must be received by August 27, 2010 to avoid a late registration charge of $100.00.

Conference package, including name badges and conference materials may be picked up at the registration desk starting at noon, Sunday, September 12, 2010.

Two ways to register:

Register Online at http://www.acwwa.ca
(Register online before July 30th to be eligible for the early bird draw!)

Or Mail your completed form and payment to:

2010 ACWWA Conference
c/o Clara Shea
ACWWA
Box 41002
Dartmouth, NS

TRADESHOW EXHIBITOR REGISTRATION

ABEA members are entitled to booth space until July 30, 2010. Any remaining booths at that time will be assigned to non-ABEA members based on the order in which registrations were received.

The deadline for booth space is August 27, 2010.

If registered as an exhibitor you are limited to the functions as indicated on the tradeshow registration form. Should you or your companion wish to participate in all functions and to receive conference hotel rates you must also register as a delegate/companion on the conference registration form. Please note: Two representatives are included as part of the booth fee.
